

I have been a customer of XM Radio for 2 years now. I have loved having the option to listen to my favorite stations while traveling for my job; plus XM has a huge variety of stations (news, comedy, regular FM stations, and others). I am sales rep, and I travel all over Oregon and Washington to work. I hate not finding good stations that I like to listen too. I get sick of my CDs and hate silence. Please keep all of my XM channels here! I am not sure if I could stand driving 6 hours a day listening to a bad station. Thanks for listening to my views, Let's keep the 1st amendment real!
